

**AMAZING SPECIAL!**

**pclocs UVone**

**SAVE OVER \$1500**

Disinfects mobile devices to a 5-log kill in just 30 seconds, reducing the risk of infections.

## Touchless Operation. Reduce the Spread of Infection

### 99.99% Bacteria Reduction.

Effective UV-C disinfects to a 5-log kill, reducing the colony to 1 MRSA bacterium after a 99.99% reduction. With touchless sensors, users never physically touch the station, reducing cross contamination.

### Rapid UV-C Technology Disinfects in just 30 Seconds.

UVone is specifically designed for quickness and ease of use, encouraging busy staff and student to change their daily behaviour, thus increasing hygiene compliance long term.

### Touchless, Motion-Activated Door.

Most infections are transmitted by physical contact, making personal hygiene to staff and students a critical step toward reducing the spread of infection. UVone users never physically touch the station, preventing cross contamination.

### Convenient and Visible.

UVone seamlessly integrates into any environment or workflow, such as libraries, classrooms, staff rooms or any other location that is most convenient. Optional accessories include a table stand, wall mount or a cart with wheels for easy portability—all include a VESA-compatible mounting plate. A stand-alone mounting plate is also available. (Accessories sold separately).

- Compatible with almost any Mobile Device. Can accommodate any device within: 266.7L x 38.1W x 184.15H (mm). With or without cases on
- It can disinfect up to three smaller device at one time or even items like keys and badges
- Six times quicker than using traditional wipes. To be effective, traditional wipes can take upwards of three minutes to disinfect, while UVone disinfects in just 30 seconds. UV-C disinfection is more reliable and efficient than wipes - plus, it does not degrade the integrity of devices over time
- Size: 510L x 210W x 390H (mm) Weight: 6.68kg
- 12 Months Warranty
